GOT WRONG SHIPMENT.

Cider Intended for Georgia Sent to Dealer in Staunton.

(Special to The Times-Dispatch.) Staunton, Va., October 14.—Antonio Toscano, a retail grocer, appeared in the Police Court and pleaded guilty to selling cider containing more than 6 per cent. alcohol, in violation of the Byrd law. He pleaded ignorance, and D. J. Gregory, of the Richmond firm of Gregory, Vinograd Company, assumed all blame, saying the shipment contained 9 per cent. and was intended for Georgia, but was shipped by mistake to Toscano. Mr. Gregory also went on Toscano's bond for \$500 for twelve months for good behavior. Toscano's place had for some time been under surveillance on the part of the police and the dry people.

Appointed Postmaster.

(Special to The Times-Dispatch.) Nashville, N. C., October 14.—A good deal of interest has been created in the appointment of W. S. Bailey as postmaster at Spring Hope. It is interesting in this connection to state that Bailey was a Butler-Morehead supporter, while his strong opponent was John C. Matthews, who supported the Duncan folks until the very last.

LUMBER COMPANY BUYS ENTIRE TOWN

Several Million Dollars Represented in Transfer of Timber Lands.

(Special to The Times-Dispatch.) Asheville, N. C., October 14.—The reports to the effect that the Whiting Lumber Company had purchased the little town of Robbinsville, the county seat of Graham county, have not only been confirmed, but it has been learned that the company has purchased about two-thirds of the whole county.

The only detail lacking to the whole report is the price that was paid. This, however, it is safe to say, will be several million dollars. The town of Robbinsville is a quiet little town of about 300 inhabitants. At present it has no industries, but it is surrounded by thousands of acres of valuable hardwood timber lands. The Whiting company is backed by an English syndicate, which, it is understood, has loaned the concern \$2,000,000 for the enterprise. The only property that the company did not purchase was the two churches of the town and a training school. Even the county court-house property was purchased, and it is more than likely that the county seat will be changed to another town. An engineer, who is the property of the Whiting company, started on the survey of twenty-five miles of railroad to be built along the Cheoah River to meet a proposed road of the Southern, which will be started at once.

The Whiting Lumber Company's home offices are at Philadelphia, and it maintains a large office here, and has recently increased its capital stock from \$1,000,000 to \$5,000,000. The company intends to establish a mammoth lumber manufacturing company in Robbinsville. It is further stated that the company proposes putting in an immense tannic acid plant, and also a pulp wood plant, in connection to its tremendous lumber operations. Taking the whole proposition into consideration, it means that the little town of Robbinsville will soon develop from its years of sleep to a wide-awake lumber camp of two or three thousand inhabitants.
